Hello,

Thanks for the draft. The right content seems to be there, but we've got some additional thoughts on how things should look. One of our parents is a graphic designer. She took a look at the pages you sent, and came up with the two attached design alternatives.

We want you to decide which looks better. You can send me another zip file for the website with updates.

BTW, I've also attached additional images that are referenced in the two designs that she created.

Thanks,
Tom Denton
